But beware the Jabberwock my son...

Flora and Jess are separated by more than a century, but a chance meeting across time leads them to a magical world beyond the mirror, where the triumph of hope rests with the power of friendship and imagination.

This stunning new musical adaptation of **Lewis Carroll's** classic tale combines an enchanting musical score by award winning Composer **Rebecca Applin** together with captivating storytelling by **Susannah Pearse**. Brought to you by **YMT** who have a reputation for creating new musical works of the highest quality.
